2302031030162 Assignment-1

Here are the steps to create a git repository named as my enrollment number, and add two folders names assignment1 and assignment2.

Step1:- open your terminal or command prompt.

Step2:- navigate to the directory where you want to create the repository using the cd command.

Step3:- run the command git init "2302031030162" to create a new git repository named "2302031030162".

Step4:- navigate into the newly created repository using ed 2302031030162.

Step5:- run mkdir assignment1 to create the assignment1 folder.

Step6:- run mkdir assignment2 to create the assignment 2 folder.

Step7:- now your repository should have two folder names assignment1 and assignment2.

Step8:- you can add files to these folders and commit your changes using git commends like git add and git commit -m initial commit.

That's it you are creates a git repository named 2302031030162 with two folders named assignment1 and assignment2.
